

## MOLD TEST KITS

### **MOLD TEST KITS:**

**Alpha Energy's mold test kit use a multi-test slide card capable of holding up to 6 lift tape samples. A card can be sent back to the lab with only 1 sample or up to 6 sample sites per card.**

**Three bulk sample bags are included with each kit. These can be used for those tough sampling environments like carpet, pad, or moist wallboard.**

**The analysis identifies the mold spores present on each sample and provides a debris rating to verify the sample quality.**

**Lab analysis is \$10.00 per sample. A sample is a single lift tape or bulk sample.**

**Home Inspectors: Let us be your one-stop shop. We will analyze your Air-o-cells for \$10.00 each. Be sure and include your air-volume on the Chain of Custody letter or form you send in with your samples.**

### **Mold Test Kit Prices**

Quantity	Price
1-9	\$9.75
10-49	\$8.75
50-99	\$8.00
